No. 8/48/39325-C.
Labour and Housing Department,
Bombay castle, 21st September 1950.

Subject:- Application of the Bombay shops and Establishments Act, 1948, to factories which have been sanctioned motive power during night time.

Memorandum.

The undersigned presents compliments to the Deputy Secretary to Government, Public Works Department, Bombay and with reference to his letter No. 1932/36-E1(II), dated the 24th August 1950, on the above subject, is directed to request that a list showing the names and addresses of the factories which have been sanctioned motive power during night time, may be furnished to this Department at an early date.

By order of the Governor of Bombay,

Sd/-

For Secretary to the Government of Bombay.
Labour and Housing Department.

MBT.
27.4.56.

1932/36/77862.

Public Works Department, Bombay.

EL Br. (II).

The Labour and Housing Department was addressed vide G. L. refd. to in its letter whether, in view of the consumers being - allowed night supply and in consequence then e industries would be working between 10.30. P. M. & 7. A. M., the Bombay Shop Establishment Act, 1948 warrant any amendment so as to exempt these -- consumers from the operation of the above Act.

2. The main pps. containing this ref. G. L. is under submission.

3. As for the information now reqd. by the L. & H. D. it may be noted that all the night lists containing the orders sanctioning - Night Supply to the various consumers do not mention the address against their names. To search for these pps. it would be a control to task with the possitibility of not searching all such orders.

4. It may also be noted that since there is a possibility of some of the consumers not having been connected, it would be useless to exempt them from the provisions of the Act.

5. In the cir,, it is suggested to ask all the licensees to give the names and addresses of all such consumers to whom Night Supply - has been already connected in their respective areas, of supply.

6. Similarly further monthly list to follow for further check up.

(a). As in para 5 & 6.

(b). List of consumers for whom night power given should be sent to D. D. address will be sent later on when received from supply Co.

Resubmitted.

2. The Tata Power company has farwarded the names and address of one more consumer whose supply for night time has been connected. The ~~information~~ information may be submitted to the L. & H. Deptt. as per draft put up for exempting the ~~Consumers~~ from the application of the shop & Establishment Act.

3. The B. E. S. & T. U. has not submitted the said information inspite of 3 reminders vide U. Ls. & pp. ante 67, 74 & 97. Reply may be awaited for few days - more.

4. As regards U. Secy:s remarks against para 4 of the O. Mp dt. the - 4.12.50. it may be stated that M/s. Premier Automobiles had a sanctioned but unconnected load of 800 KW. As such there was Govt. restriction to connect this load, they requested night supply of 400 KW. which was sanctioned and connected. When subsequently Tata were authorised to connect sanctioned. but unconnected loads of their consumer's. The above consumer was connected for all 24 hours & hence the necessity of exempting this - factroy from the application of the Shops & Establishment Act. does not arise. In the circs., no further action seems necy. now in this respect.

No. 1932/36-El. (II). Public Works Department,
Bombay Castel, (Bombay No. 1),
28th August 1950.

The Secretary to the Government of India,
Ministry of Industries and Supplies,
New Delhi.

Subject:- Shortage of Electric Power in Bombay-Poona Area.

Sir,

I am directed to state that several communications have been received by this Government from Ministries of the Government of India and attached offices recommending sanction of electric power to industrial undertakings and for other purposes which are either sponsored by the Government of India or are considered essential or deserving of priority on account of the special circumstances of the case. The position regarding supply of electric power in the Tata interconnected system (Bombay - Poona area), is extremely acute and will continue to be so for some time to come. In fact power is at present being sanctioned only to new buildings buildings for domestic purposes such as lighting, and fans, - according to prescribed scale and motive power is being sanctioned only for very essential requirements, of the highest priority that cannot wait or be sent otherwise . In case of refugees, only night power is sanctioned, as a special case. No power is sanctioned for such domestic purposes as electric heaters or geysers or air conditioning and no motive power is available for new - industries.

2. Consequent on the cyclone of October 1948, the breakdown of a generator in the system in December 1948, and the deterioration in the position of supply, Government had to order suspension in June 1949 of all new connections, inclusive of loads which were previously sanctioned by Government but were not connected till then ...

them then. It has been decided that the small quantities of power available for release should be reserved for " sanctioned but unconnected" loads, since most of the consumers in this category have entered into commitments, on the basis of the sanction, accorded by Govt. prior to June 49. The total requirements of this class would absorb all the power available in the next year or two - with the result that no power would be available for " new" industries until the capacity of the system is augmented.

3. The problem of shortage of power in the Bombay-Poona area was examined last year by the power shortage committee which included as Member an officer of the Central Electricity Commission and a copy of the report of the committee is enclosed for information . Much as the State Government would like to assist in the development of new industries in this area, it would not be possible for this Government of India, to comply with recommendations for release of electric power received from the Ministries of the Government, and for some time to come new industries would have to rely on their own coal-by- plant-steam or diesel. The position is expected to ease by 1953 with the installation of - thermal plant by the Bombay Government of 45, 000 KW. Capacity, orders for which are expected to be placed shortly.

4. I am therefore to request that all officers concerned may please be advised not to recommend any application or demand for power in the Bombay- Poona area without prior consultation with this Govt., since recommendations made without such consultation are liable to be rejected , causing embarrassment both to the central and this Govt. and to the applicant.

Yours faithfully . .

Sub:- Power shortage in Bombay - Poona area.

Dear Sir,

I am directed to refer to your letter No. CDI /215 (Genl.) /48, Dt. 23.8.1952, and to state that power position has improved only so far as to permit all consumption of electric energy on existing - to loads . The power position still does not permit sanctionging of new industrial to loads as these has been no addition to the generating capacity. The question of sanctioning new loads can be considered only when surplus power becomes available, in 1953. When to chola - power station come into commissio.

.....

No. LRM 31/ 18411 of 1953.

Bombay, 5th March 1953.

Returned, with compliments.

In respect of the Karjan Electricity Undertaking, it may by stated that because of the unsatisfactory supply position, the licensee has not been entertaining fresh requisition from prospective consumers.

Besides the position of thi Supply Undertaking in Particular is very peculiar in as much as the license stands in the name of the Municiplaity at Karjan, Whereas the generation and distribution of supply has been entrusted to a private individual by means of regular contract during the Ex- Baroda State regime. This contract is going to be terminated inl the begining of the next calender yer according to the terms of the contract and as such the party conducting the business is not keen on - maintaining any records nor, any requisition forms exist.

As regards the Dhari Electric Supply Company, Dhari, it is reported that the licensee has not been accepting any fresh - requisition for supply from the prpspective consumers due to the fact that both the generating sets at the Power house. are fully loaded and that no additional load can be taken. No doubt., there are some prospective consumers in the city but as they know that the licensee whould not be in a position to take additional loas, they have not submitted their applications for supply. It is therefore, suggested that the licensee may be asked to entertain applications from the prospective consumers and to submit them to Government with his remarks for its orders.

THE SATARA ELECTRIC SUPPLY COMPANY LTD.

Ref. :- 1165.

43 Bhavani Peth
Satara City.

Date :- 8th June 1951.

To

The Under Secretary to the Government of Bombay.
Public Works Department,
Bombay.

Subject:- Supply of electric power Temporary connections.

Sir,

Invariably we receive applications from consumers for temporary supply of electric power for lighting for carmonial purposes etc. At present these cases are required to be refered to Government for consideration and a sanction. In most of these cases it so happens that the consumer requires temporary supply immediately, but owing to the present procedure of refering every cases to Government it takes its own own time to get the necessary sanction. Thus the intending consumer does not get the requisite supply, in time. To overcome this difficulty we beg to request you to kindly grant us permission to connect the temporary load up to 1 K. W. for 3 days at least. If any consumer require a load more than 1 K. W. and for more than 3 days his case will be refered to Government for consideration & sanction. This arrangement will be very convinient for the company and the concern consumer both.

Yours faithfully.
For The Satara Electric Supply Company.

7650.

Public Works Department.

'A' Br.

Resubmitted .

2. Please see the U. O. dated the 1.8.1952. The papers refd. to therein were recd. back from the El. Engr. to Govt. & in accordance with his recommendations made therein , orders delegating powers to certain licensees , to connect lighting loads etc, without reference to Govt. haven been put up . The revelant papers containging the orders - have been refd. U. O. to the El. Engr. for information and remarks if any on dt. 24.8.53. Their receipt of the Main case is awaited.

3. Relaxation of control in respect of the following three undertaking is under consideration in these papers vide U. O. dt. the 28.7.1951,:-

(i) The Karjan Minicipalty.

(ii) The Dabhoi El. Power Supply C.

(iii) The Dhari Electric Supply Co.

It has been decided in the Main case not to relax control in respect of any of the above 3 undertakings as the present supply position does not warrant such relaxation in his - letter at p.. ante the El. Engr. has recommended that we may delegate powers to the Karjan & Dabhoi, Elcy. undertakings to give supply for tempy. illumination, without reference to Govt. , upto). 5. K. W. & 1 K. W. respectively for 3 days provided the total load for such purposes does not exceed 1- K. W. & 3 K. W. respectively on the station on any day. Since considerable time has lapsed since the El. Engrs'. recommendations , were madein this connection , that officer, may see U. O.

U. O. again for remarks as to whether the above recommendations still hold good in the light of the present supply position at Kargam & Dabhoi, He may also be requested to give similar recommendations in the case of the Dhari Sloy. Undertaking which have not so far been furnished.

U. O. R. to the El. Engr. to Govt. dt. the 18.5.53.

MBT. 5.5.56.

Below U. O. R. No. 1932/36/76158. dated the 18th May 1953 from ~~in the P~~ Govt. ~~in the~~ Public Works Department, Bombay.

No. LRM. -31/4390. of 1953.
Bombay 13th July. 1953.

Returned with compliments.

2. The present position of supply in respect of the Electric undertakings at Dabhoi, Karjan and Dhari is given below:-

i). The Dabhoi Elec. Supply Co. :- There are four — generating sets in the power House out of which only two sets are working at present with a total rated capacity of 165 K. W. and safe capacity of 120 K. W. The maximum demand on the station is about 97. 5 K. W. and no stand - by set is maintained in the Power House.

ii). The Karjan Elec. Supply Co. :- There is only one set of 15 K. W. capacity which takes a safe load of 11.5 K. W. The maximum demand on the station is 11.5 K. W. only.

iii). The Dhari Elec. Supply Co.:- There are two old sets with a rated capacity of 10.0 K. W. and 14.0. K.W. and a safe — carrying capacity of 8 K. W. and 12 K. W. respectively. The peak load is about 20 K. W.

In view of the facts stated above it is observed that the supply position of the three above mentioned undertakings is far from satisfactory as the peak load is practically equal to the safe generation. In the circumstances, it is not advisable to grant any relaxation to temporary supply."

'L' Br.

Submitted with reference to the O. M. dt. the- 15. 5. 1953 .

2. Please see the El. Engrs's report which is self explanatory. In view of the unsatisfactory supply position at Dabhoi , Karjan , and Dhari, the El. Engr. states that it is not advisable to grant any relaxation for temporary supply. to these 3 undertakings, the El. Engr's recommendation may be accepted . If so , S.E's. further action is unnecessary. on these papers which may now be recorded.
